The innovative ideas presented in The Playground Project respond to the universal enthusiasm in children for play.--Allison Meier "Hyperallergic " Kurzbeschreibung

Until the 1980s?and in rare cases until today?playgrounds were places for social experiments, risky projects, and spectacular sculptures. Architects, urban planners, artists, parents, and children were invited to leave their comfort zone and to venture into something new. The Playground Project will bring many of these exemplary, but nowadays forgotten initiatives, pioneering acts, and adventures back. Examples from Europe, the USA, Japan, and India will be discussed in depth and illustrated with numerous images. This is the first comprehensive overview of this kind and addresses laymen as well as experts who want to do more than just seesaw and swing.
